

Requirements confirmation — please review

Hello,

Please read this document and **confirm or correct** anything that is wrong.

This is **our understanding** of your latest requirements. If a point is not what you meant, reply under that point with the correct meaning.

Please also answer the **Questions** under each section. We will not start those items until you confirm.

This document includes your **latest milestone PDF** (buyer, vendor, admin, driver, market, SMS, WhatsApp, in-app, API crash).

How to reply

You can reply like this:

```text

3. BUYER — correct / change: ...

Q1: ...

Q2: ...

2.1 Debt — correct / change: ...

Q22: ...

...

...

---

### ## 3. BUYER - \$50

#### ### What we understood

- When a buyer opens the app, they should see the **home / front screen first**.
- **Login / Sign in** comes after that, not before.
- Guests should be able to browse the marketplace without an account.

#### ### What we will do (if this is correct)

- Make the buyer home screen public (no login required to view it).
- Keep Login / Sign in available from that screen.
- Checkout, orders, wallet, and similar actions will still require login.

#### ### Questions

1. On the guest home screen, what should appear? (banners, popular products, categories, vendors — which of these?)
2. Can a guest **\*\*add to cart\*\*** without login, or must they log in when they tap Buy / Add to cart?
3. Should a guest see **\*\*prices and delivery charges\*\*** before login?

Answer: okay.

Q1: banners, popular products.

Q2: user should login before the add to cart.

Q3; NO ---

#### ### 3.1 Location search — add state / district

Already done OK

---

#### ### 3.2 Shipping address — add state / district

Already done.

— OK

#### ### 3.3 Add sign post- \$20 EDIT

**\*\*What we understood\*\***

- Buyer address should include a **\*\*sign post\*\*** (landmark / signboard near the house), so drivers can find the place.

**\*\*What already exists\*\***

- There is **\*\*no sign-post field\*\*** on buyer address today.

#### ### Questions

7. Is “sign post” a **\*\*text field\*\*** (example: “blue gate near mosque”), a **\*\*photo\*\***, or **\*\*both\*\***?

8. Is it required on **\*\*every order\*\***, or optional?

ANSWER

Q7; IT SHOULD BE TEXT FIELD

Q8; OPTIONAL

---

#### ### 3.4 Product shows out of stock label - \$10 EDITE

**\*\*What we understood\*\***

- If a product has no stock, the buyer should see an **\*\*Out of stock\*\*** label.

**\*\*What already exists\*\***

- Products have a **\*\*stock number\*\***. There is no separate “Out of stock” label field.

**\*\*What we will do (if this is correct)\*\***

- When stock is 0, mark the product as out of stock so the app can show the label and block add-to-cart.

ANSWER

ALL OK

### ### Questions

9. If stock is 0, should the product still appear in search/home with the label, or be **\*\*hidden\*\***?

10. Can the buyer still **\*\*open\*\*** the product page when it is out of stock?

ANSWER

Q9 ; REMAIN

Q10; NO

---

### ### 3.5 Recent review product notification -\$20 EDIT

**\*\*What we understood\*\***

- Buyer should get a notification about a **\*\*recently reviewed product\*\***.

**\*\*What already exists\*\***

- Followers can get notifications for new product, price change, and restock. There is **\*\*no** notification for new reviews**\*\***.

### ### Questions

11. Who receives this notification?

- (a) the **\*\*buyer who wrote\*\*** the review

- (b) **\*\*other buyers\*\*** who follow that vendor

- (c) the **\*\*vendor\*\***

- (d) something else — please explain

12. Does “recent review product” mean: notify when **\*\*someone reviews\*\*** a product, or remind the buyer to **\*\*review a product they bought\*\***?

ANSWER

Q11; (b) **\*\*other buyers\*\*** who follow that vendor ( BUT THE VENDOR WILL HAVE THE NOTIFICATION BUTTON UNDER EACH PRODUCT . ITS NOT AUTOMATIC )

Q12; remind the buyer to **\*\*review a product they bought\*\***? FOR NEW CHANGES IN PRODUCT

---

### ### 3.6 Affiliate not working

**\*\*What we understood\*\***

- Affiliate / referral is **\*\*not working\*\*** for buyers (or in the buyer app).

**\*\*What already exists\*\***

- Affiliate APIs already exist (click, conversion, vendor/driver links).

### ### Questions

13. Please describe the bug: what did the user do, and what went wrong? (example: link does not open, no commission, app error)

14. Please send a **\*\*screenshot\*\*** or the **\*\*referral link\*\*** that failed.

---ANSWER

Q13 APP ERROR

Q14 will be provided later.

### ### 3.7 Promotion settings for vendor they follow- \$70 EDITE

**\*\*What we understood\*\***

- Buyer can set **\*\*promotion notifications\*\*** for vendors they follow.
- After logo, a **\*\*note\*\*** can go by **\*\*WhatsApp, SMS, in-app\*\***.
- In **\*\*settings\*\***, there is a WhatsApp option.

**\*\*What already exists\*\***

- Buyers can **\*\*follow\*\*** vendors. There is **\*\*no WhatsApp\*\***. SMS is used for **\*\*OTP only\*\***. In-app/push exists for some vendor events, not a buyer “promotion settings” screen.

### ### Questions

15. Is this a **\*\*buyer settings\*\*** screen: “notify me about promotions from vendors I follow”?

16. Which channels should the **\*\*buyer be able to turn on/off\*\***: WhatsApp, SMS, in-app — all three?

17. “After logo in note” — do you mean a message **\*\*after login\*\***, or a **\*\*note under the app logo\*\*** on home?

18. Who writes the promotion text: the **\*\*vendor\*\***, or **\*\*admin\*\***?

19. In settings, should the buyer save a **\*\*WhatsApp number\*\***, or only turn WhatsApp notifications **\*\*on/off\*\***?

ANSWER

Q15; YES

Q16 ALL

Q17; AFTER SIGNING IN AND IN SETTINGS

Q19; only turn WhatsApp notifications **\*\*on/off\*\***?

Q18; BOTH BUT THE VENDORS PROMOTION PHOTO , TEXT SHOULD BE ACCEPTED BY THE ADMIN

---

### ### 3.8 Banner by buyer zone - \$50 EDITE

**\*\*What we understood\*\***

- The buyer should see **\*\*banners for their zone only\*\***.
- Admin sets banner photos **\*\*by zone\*\***.

**\*\*What already exists\*\***

- Banners exist, but they are **\*\*global\*\*** (no zone). Every buyer would see the same banners.

### ### Questions

20. One banner can belong to **\*\*one zone only\*\***, or **\*\*many zones\*\***?

21. If the buyer has **\*\*no zone\*\*** yet (guest / before location), which banners should they see: none, global default, or all?

---ANSWER

Q20 ; to **\*\*one zone only\*\***,

Q21; global default,

## ## 2. VENDORS

### ### 2.1 Walk-in debt (baki / credit payment)- \$150 NEW

**\*\*What we understood\*\***

- Under walk-in payment, the vendor can sell on **\*\*debt\*\*** (customer takes goods now, pays later).
- There must be a **\*\*debt status\*\*** (for example unpaid → paid).
- Status can be changed to **\*\*Paid\*\***.
- There must be a **\*\*filter\*\*** for debt / payment status.
- Debt totals must appear in **\*\*sales analytics\*\***.
- Status must update in **\*\*real time\*\***.

**\*\*What we will do (if this is correct)\*\***

- Add debt as a walk-in payment option.
- Save unpaid amount, mark as paid later, filter lists, and show debt in vendor analytics.

### ### Questions

22. Is debt **\*\*only for walk-in\*\***, or also for marketplace orders?

23. Is **partial payment** allowed? Example: order is 5,000; customer pays 2,000 now and 3,000 later.
24. Does the walk-in customer need an **app account**, or is name + phone enough to keep their debt record?
25. Do you need a **credit limit**, **due date**, or **late fee** per customer?
26. "Real-time" — should the screen update **by itself** (live), or is it enough if the list updates after **refresh**?

ANSWER

Q22; **only for walk-in**

Q23; YES / CORRECT

Q24; name + phone enough to keep their debt record?

Q25; YES

Q25; **by itself**

---

### ### 2.2 Continuous scanner (walk-in)- \$50 EDITE

**What we understood**

- Walk-in search and barcode scan should stay in **continuous / auto-focus** mode.
- The camera should keep scanning so the vendor can add many items without opening the scanner each time.

**What we will do (if this is correct)**

- Support barcode lookup on the backend (already exists).
- Continuous camera / auto-focus is done in the **vendor app (Flutter)**.

### ### Questions

27. Is this **phone camera only**, or do you also use a **USB / hardware barcode scanner**?

ANSWER

27; BOTH

---

### ### 2.3 Returned products (walk-in)- \$120 NEW

**What we understood**

- You need a way for the vendor to **receive returned products**.
- You asked for an **explanation / wireframe** first (not only code).

**What we understood this flow to be**

1. Vendor opens the original walk-in order / receipt.
2. Selects which items (and quantities) are returned.

3. Stock goes back.
4. Money is refunded or adjusted (cash / debt / next bill — to be confirmed).

#### ### Questions

28. Is this **walk-in shop return**, or the existing **marketplace refund** (buyer requests refund in the app)? Or both?
29. After return: stock back into inventory — yes/no?
30. Refund method: **cash**, **wallet**, **reduce debt**, or **store credit**?
31. Can they return **part** of an order (some items / some quantity)?

Please confirm the flow above or send your preferred wireframe.

ANSWER

28; BOTH

29; YES

30 : ALL

31 YES

---

#### ### 2.4 Download revenue and selling products- \$40 EDIT

**What we understood**

- **Total revenues** and **selling products** should be **downloadable**.

**What we will do (if this is correct)**

- Add export of vendor sales / revenue and product sales for a date range.

#### ### Questions

32. File type: **Excel**, **PDF**, or **both**?
33. Date range filter: yes/no? Default period (today / this month / custom)?

---ANSWER

Q32; **both**

Q33; YES

#### ### 2.5 Buying price and profit - \$40 NEW

**What we understood**

- When uploading a product, vendor must enter **buying price** (cost).
- Buying price should also show under **top selling products** in sales.
- **Profit** should show in **analytics** and on **top selling products**.
- Profit = selling price – buying price (× quantity).

**What we will do (if this is correct)**

- Add buying price on product create/edit.
- Show profit on analytics and top-selling lists.

#### ### Questions

34. Who can see buying price? Vendor owner only, also staff/moderators, also admin?
35. If buying price changes later, old sales profit should use the **\*\*old cost\*\*** or the **\*\*new cost\*\***?

ANSWER

34; VENDOR OWNER ONLY

35; **\*\*old cost\*\***

---

#### ### 2.6 Category of sale: Marketplace / Walk-in / Debt - \$50 NEW

**\*\*What we understood\*\***

- Under sales and orders, add a sale category/role:
  - Marketplace
  - Walk-in
  - Debt
- Vendor can filter sales and orders by these.

**\*\*What we will do (if this is correct)\*\***

- Marketplace and Walk-in already exist.
- Add **\*\*Debt\*\*** as a third category on sales/orders and analytics.

#### ### Questions

36. Is **\*\*Debt\*\*** a type of walk-in payment, or a separate sales channel like marketplace and walk-in?

ANSWER

Q36; walk-in payment,

---

#### ### 2.7 Outlets visible to vendor = same location

**\*\*What we understood\*\***

- A vendor should only see outlets that match the **\*\*vendor's location\*\***.
- They should not see outlets in other cities/zones.

**\*\*What we will do (if this is correct)\*\***

- Store location on outlets.
- Show a vendor only outlets in matching location(s).

#### ### Questions

37. "Same location" means: **same zone**, **same town**, or **GPS distance** (for example within 10 km)?

38. If a vendor works in **more than one location**, should they see outlets for **all** of those locations?

ANSWERS

37; : **same zone**, **same town**, STATE

38; **same town**, STATE

---

#### ### 2.8 Offline (vendor) - \$250 NEW

**What we understood**

- Vendor app should work **offline** with a local database.
- When internet returns, data **uploads automatically** to the cloud.

**What we will do (if this is correct)**

- This is a large piece: local save + sync engine + conflict handling. Scope must be agreed first (see questions).

#### ### Questions

39. Which screens must work offline? **Walk-in billing only**, or also products, orders, stock, etc.?

40. If two devices sell the **last 1 stock** while offline, whose sale is valid when they sync?

ANSWER

39 ; ALL

40 ; WE SHALL HAVE CONFLICT DETECTION AND RESOLUTION ( NOTIFICATION AND REJECTION OF SAME OF SYNC DATE OR ADD THEM TOGETHER)

---

#### ### 2.9 Walk-in payment: Jango Wallet and payment pages -\$100 NEW

**What we understood**

- Under walk-in payment, add **Jango Wallet** as a payment method (together with the other methods).
- There should also be **payment pages** for this.

**What already exists**

- Walk-in payment methods today: **Cash, Card, Mobile** only. Wallet exists for marketplace checkout, **not** for walk-in POS.

### ### Questions

- 41. For walk-in, whose wallet is used: the **buyer's Jango Wallet** (customer must have an app account), or the **vendor's wallet**?
- 42. If the customer has no app account, can they still pay with wallet, or only Cash / Card / Mobile / Debt?
- 43. What are "payment pages"? Checkout screens in the **vendor POS app**, or **web payment pages** (Flutterwave)?

### ---ANSWER

- 41; **buyer's Jango Wallet**
- 42; YES
- 43; **vendor POS app** COZ ITS WITH IN APP TRANSACTION

### ### 2.10 Bill receipt — add vendor name - \$20 EDITE

#### **What we understood**

- Walk-in **bill / receipt** must show the **vendor's name**.

#### **What already exists**

- Order PDF already loads vendor **business name**. If it is missing on the printed bill, it may be an **app layout** issue.

### ### Questions

- 44. Is this the **paper/PDF receipt** after walk-in, or also the **on-screen bill**?
- 45. Which name: **business name**, **owner name**, or both?

---

### ANSWER

- 44 ; **paper/PDF receipt**
- 45; **business name**

### ### 2.11 POS customer screen – \$100 NEW

#### **What we understood**

- Walk-in POS needs a **customer-facing screen** (the customer sees the bill while the vendor scans).

#### **What already exists**

- There is **no POS customer-screen API**. This is mainly an **app UI** (second display).

### ### Questions

46. What must the customer screen show: item list, prices, total, vendor name — which of these?

47. Is this a **second screen** on the same phone/tablet, or a **separate customer display**?

ANSWER

46; CORRECT

47; **separate customer display**?

---

### ### 2.12 Vendor affiliate management (SS section + auto-fill URL)- \$50 EDITE

**What we understood**

- Vendor can **edit their affiliate program** (including an **SS / screenshot** section).
- Referral **URL should auto-fill** for the vendor.

**What already exists**

- Vendor can view affiliate links and stats. There is **no vendor editor for program screenshots**, and **no auto-fill URL** field.

### ### Questions

48. What is “SS section”? **Screenshot** of the affiliate program, or **Social** section?

49. Auto-fill URL: when the vendor opens Promote, the **referral link is filled automatically** — is that correct?

50. Who uploads the screenshots: **vendor** or **admin**?

---ANSWER

Q48; FORGET ABOUT IT

Q49; **referral link is filled automatically**

Q50; ADMIN ( VENDOR JUST SETS THE PRICES AND TIME FINISHED )

### ### 2.13 Promotion space (vendor)- \$50

**What we understood**

- Vendor has a **promotion space** (place to create/show promotions).

### ### Questions

51. Is this the same as admin promotions (sections 3.7 and 4.11), or a **vendor-only** banner/offer on their store?

52. Do promotions need **admin approval** before buyers see them?

---ANSWER

51; same as admin promotions (sections 3.7 and 4.11)

52; YES

## ## 4. ADMIN PANEL

### ### 4.1 Subscription - \$100 EDITE

**\*\*What we understood\*\***

- Subscription plans must be set **\*\*by region\*\***, and **\*\*by vendor / driver (zone / location)\*\***.
- Plan **\*\*visibility\*\***: who sees which plan (by region, vendor, driver).
- Admin can **\*\*search by zone\*\***.
- Add plan types: **\*\*Marketplace\*\*** and **\*\*Walk-in\*\***.

**\*\*What we will do (if this is correct)\*\***

- Admin can create plans for a region/zone, for vendor or driver.
- Vendor/driver apps only show plans for their location and role.
- Admin can search plans by zone.
- Plans can be Marketplace, Walk-in, or both.

### ### Questions

53. Is the **\*\*price\*\*** different per region, or is it the same price but **\*\*shown only\*\*** in that region?
54. Marketplace vs Walk-in: two **\*\*separate plans\*\***, or one plan with two **\*\*feature switches\*\***?
55. If a vendor has a **\*\*Walk-in only\*\*** plan, can they still take **\*\*marketplace\*\*** orders?
56. For drivers, "zone" means **\*\*delivery zone\*\*** or **\*\*country / state / town\*\*** (visibility zone)?

---ANSWER

- 53; **\*\*price\*\*** different per region,
- 54; one plan with two **\*\*feature switches\*\***
- 55; YES
- 56; **\*\*delivery zone\*\***

### ### 4.2 Order - \$50 REPAET

**\*\*What we understood\*\***

- Under payment method, add **\*\*Debt\*\***.
- Debt payment status must change in **\*\*real time\*\***.
- Orders should be **\*\*downloadable\*\***.
- Admin can choose **\*\*how many rows per page\*\***.

**\*\*What we will do (if this is correct)\*\***

- Add Debt on admin orders + filter.
- Add download (Excel/PDF — confirm below).
- Per-page size already exists; we will keep/confirm it in the admin UI.

### ### Questions

57. Download format for admin orders: **Excel**, **PDF**, or **both**?

58. Same “real-time” question as vendor debt (live vs refresh).

ANSWER;

57; BOTH

58 YES

---

#### ### 4.3 Vendor view (admin) - \$50 REPEAT

**What we understood**

- Analytics table: add **profits**, **debt**, and **sales**.
- Inventory tracking with **filter**.
- Under product sell: filter by **time / date**, with **total revenue** and **stock**.

**What we will do (if this is correct)**

- Extend admin vendor analytics with profit, debt, sales.
- Inventory list with filters (search already exists; we add the filters you confirm).
- Product-sell report: date/time filter + revenue + stock totals.

#### ### Questions

59. Inventory filters you need: product name, low stock, date, zone — which of these?

60. Product-sell date filter: by **day**, **range**, or **both**?

---ANSWER

59; ALL

60 BOTH

#### ### 4.4 Affiliate links - \$20 EDITE

**What we understood**

- **Zone / location** is pending at affiliate registration (they must have a location to complete registration).
- **Search by zone** on all affiliate pages.

**What we will do (if this is correct)**

- Require zone/location when an influencer/affiliate registers.
- Add zone search on affiliate admin lists.

#### ### Questions

61. If they register **without a zone**, should the account stay **pending** until a zone is set, or should registration be **blocked**?

—

ANSWER

61; \*\*pending\*\*

#### ### 4.5 Outlet - \$50 EDITE

\*\*What we understood\*\*

- During outlet \*\*sign in / setup\*\*, set \*\*zone / location\*\*.
- That location must match the \*\*vendor's location\*\*.
- One outlet can have \*\*multiple\*\* locations.
- Admin can \*\*filter outlets by zone / location\*\*.

\*\*What we will do (if this is correct)\*\*

- Add location(s) on outlet create/edit and login/setup.
- Filter vendor–outlet matching by those locations.
- Admin outlet list: filter by zone.

#### ### Questions

62. Location is set \*\*when admin creates the outlet\*\*, or \*\*when the outlet user first logs in\*\*, or both?

ANSWER

62; \*\*when admin creates the outlet\*\*,  
---

#### ### 4.6 Zone / location filter on more admin pages- \$100 EDITE

\*\*What we understood\*\*

You want \*\*filter / search by zone or location\*\* on:

- Products
- Buyers
- Transport
- Transport shipment
- Assignment
- Track order
- \*\*Activity — all pages\*\*
- Affiliate (already above)
- Outlet (already above)

\*\*What we will do (if this is correct)\*\*

- Add zone/location filter on each of the lists above.

#### ### Questions

63. “All pages” under Activity — do you mean **every admin screen in the whole panel**, or only: orders, products, vendors, buyers, outlets, affiliate, transport, assignment, track order, and activity logs?

64. Which zone list should we use: **visibility zone** (country / state / town), **delivery zone**, or **vendor country**?

---ANSWER

63; ALL PAGES

64 ; **visibility zone** (country / state / town),

#### ### 4.7 Order payment status: Debt

**What we understood**

- Same as 4.2: payment status includes **Debt** (unpaid credit), not only paid / unpaid / COD.

\*(If this is a duplicate of 4.2, we will treat it as one task.)\*

---

#### ### 4.8 Banner photos by zone

**What we understood**

- Admin sets **banner photos by zone**.

- Buyer home shows banners that match **the buyer's zone**.

\*(Same as buyer section 3.8 — we will treat it as one task.)\*

See questions **20–21**.

---

#### ### 4.9 Payment management system \$150 EDITE

**What we understood**

- Add a **processing fee for vendors in %** (commission for Flutterwave / platform).

- This fee must **show in payout calculations**.

- **Buyer platform fee should be flat**, not a percentage.

**What already exists**

- Buyer platform fee is already **flat** (not %).

- Zone payment settings have a **platform commission** field, but it is **not fully applied** to vendor payout math yet.

- Wallets, payouts, and Flutterwave already exist.

**\*\*What we will do (if this is correct)\*\***

- Admin can set vendor processing fee as **\*\*%\*\***.
- Vendor payout = sales – this % – other deductions.
- Keep buyer platform fee **\*\*flat\*\***.

### ### Questions

- 65. Vendor % fee is charged on **\*\*order total\*\***, **\*\*product amount only\*\***, or **\*\*payout amount\*\***?
- 66. Is this **\*\*one % for the whole platform\*\***, or **\*\*different % per zone / per vendor\*\***?
- 67. Does this % **\*\*include Flutterwave's own fee\*\***, or is Flutterwave fee **\*\*extra\*\***?
- 68. Buyer flat fee: is the current flat amount OK, or what **\*\*exact amount\*\*** do you want (and in which currency)?

---ANSWER

65; **\*\*order total\*\***

66; EVERY THING IS **\*\*different % per zone / per vendor\*\***?

67; YES

68: IT WILL BE SET IN THE PAYMENT MANAGEMENT SYSTEM FOR BOTH TRANSPORT AND BUYER IN ACCORDANCE TO THERE ZONE

- THE CURRENCY WILL DEPEND ON THE ZONE

### ### 4.10 Health dashboard \$200 NEW

**\*\*What we understood\*\***

Admin needs a **\*\*health dashboard\*\*** for:

- Backend
- Server
- Payment
- Backup
- Database
- AI health assistance
- Token

**\*\*What already exists\*\***

- There is **\*\*no health dashboard API\*\***.

### ### Questions

- 69. For each item, what should admin see: **\*\*OK / Down\*\*** status only, or also **\*\*charts, logs, last backup time\*\***?
- 70. What is **\*\*Token\*\***: API keys, login tokens, Firebase/FCM push tokens, or AI usage tokens?
- 71. **\*\*AI health assistance\*\***: a chatbot that explains health status, or automatic alerts when something is down?

72. **Backup**: do you already have a backup system we should **monitor**, or should we **build backup** as well?

— ANSWER

69 ; \* status only,

Q71; ALL

71 ; BOTH

72 ; BACKUP SYSTEM I DONT HAVE

#### ### 4.11 Promotion page (SMS, WhatsApp, in-app) - 100\$ NEW

**What we understood**

- Admin promotion page can **accept a promotion**.
- It can go to buyers by **SMS, WhatsApp, in-app**.
- There is a **public announcement** button to buyers.

**What already exists**

- In-app notifications exist. **WhatsApp does not exist.** SMS is **OTP only**.

#### ### Questions

73. Can admin choose **one channel**, or send on **all three** at once?

74. Is “public announcement” sent to **all buyers**, or only buyers in a **selected zone**?

75. Who pays SMS / WhatsApp cost — **you (platform)**, or is this later?

—

ANSWER

Q;73 ; YES

Q;74 ; BOTH

Q75 ; this later

#### ### 4.12 Announcement (all roles + filters)- \$50 NEW

**What we understood**

Admin can send announcements to:

- Buyers, vendors, transport, drivers, influencers, admins

By:

- SMS, WhatsApp, in-app

Filtered by:

- Zone, state, city

**What already exists**

- Admin can send **in-app** notifications. There is **no** multi-role announcement with SMS/WhatsApp and zone/state/city filter.

#### ### Questions

76. Can one announcement go to **more than one role** at the same time (example: all vendors + all drivers)?
77. Filter: if you select **zone only**, send to everyone in that zone, including users with no city?
78. Should users **opt in** (settings) before SMS/WhatsApp, or can admin send to **all** phone numbers?

#### ---ANSWER

Q76; YES

Q78; **opt in** (settings) before SMS/WhatsApp

#### ### 4.13 Moderator (zone, state, town, phone + notifications) - \$200 EDITE/ REPEAT

##### **What we understood**

- When creating a **moderator**, add **zone, state, town, and phone number**.
- That phone number receives **notifications for their role**.
- Admin can send a notification to the **required moderators**.

##### **What already exists**

- **Vendor** staff (Owner / Manager / Moderator / Support) can be created with name, email, password, role — **no zone/state/town**. Phone may exist on the user, but is **not required** at create time.
- There is **no admin-staff moderator** with zone assignment.

#### ### Questions

79. Is this **vendor store staff**, or **admin panel staff** (your team in each zone)?
80. One moderator = **one zone**, or **many zones**?
81. Notifications to that phone: **SMS**, **WhatsApp**, **in-app**, or all?
82. Which events should that moderator receive? (new order, payout, complaint, all announcements — please list)

#### ---ANSWER

79; **admin panel staff** (your team in each zone)?

80; **many zones**?

81 ; ALL

82 ; IT GOES HAND IN HAND WITH THE ROLE THEY HAVE IF HAS THAT NOTIFICATION NEED

#### ### 4.14 SMS messages (transactional) - \$100 EDITE

##### **What we understood**

You want **SMS** for these events:

**Buyer / transport:** OTP / account verification, order placed, payment success, payment failed, order cancelled, order delivered, refund processed, security alert.

**Vendor:** OTP / account verification, new order, payment received, order cancelled, payout sent, account approved / suspended, security alert, subscription notification.

**Drivers:** OTP / account verification, new delivery assigned, delivery cancelled, delivery completed, earnings credited, account approved / suspended, security alert.

**Admin panel:** new admin verifications, critical payment failure, server/system outage, security breach / suspicious login, critical database/API failure, customer complaint, emergency country/zone operational alert, general announcement.

Note: these SMS should also go to the **phone number of the related moderators**.

**What already exists**

- SMS today: **OTP only**. The other events are **not** sent as SMS.

#### ### Questions

83. Confirm: send **every** event in this list, or only a **first batch**? If a first batch, which events are must-have?

84. SMS language: **English only**, or also local language?

85. Security alert / suspicious login: SMS to the **user**, the **admin**, or **both**?

ANSWER

— Q84 ; MAINLY ENGLISH BUT THE APP HAS THE ABILITY TO TRANSLATE

Q85; ADMIN

#### ### 4.15 In-app notifications (extra events) - \$50 EDITE

**What we understood**

In-app notifications for: order progress, driver location updates, new products, promotions, reviews and ratings, low stock alerts, vendor approvals (products etc.), general announcements, vendor subscription notification.

**What already exists**

- Some in-app/push events exist (orders, follow, restock). These extra types are **not all** implemented.

#### ### Questions

86. **Driver location updates**: every GPS move (many messages), or only **status changes** (picked up / nearby / delivered)?

87. **New products**: only for vendors the buyer **follows**, or all products in their zone?

ANSWER

— Q86; only **status changes** (picked up / nearby / delivered)?

Q87; only for vendors the buyer **follows**,

### ### 4.16 WhatsApp - \$50 NEW

**What we understood**

- WhatsApp is used for **promotions** and **general announcements** (not for every OTP/order SMS).

**What already exists**

- **No WhatsApp integration**.

### ### Questions

88. Do you already have a **WhatsApp Business** number / Meta account we should connect, or should we only prepare the system?

89. WhatsApp for promotions/announcements only — confirm **no** WhatsApp for OTP and order SMS?

— Q88 I DO HAVE

Q89; YES

### ### 4.17 Fix API — it always crashes

**What we understood**

- An API **always crashes**. This is a **bug**, not a new feature.

### ### Questions

90. Which screen / button causes the crash?

91. Please send: **screenshot**, **API URL**, and **approximate time** of the crash.

---OK LEAVE IT FOR MOMENT

## ## 5. DRIVER -

### ### 5.1 Orders not visible on the driver's screen - done

**What we understood**

- Drivers are not seeing new orders on their screen. This may be an app bug or a missing API.

**What we will do**

- Backend already has a driver pending-orders API (not the old driver order list).

- We will check with the Flutter app which URL it is calling and fix the mismatch.

#### ### Questions

92. Please send a **screenshot** of the empty driver screen and, if possible, **which API** the app is calling.

---OK

#### ### 5.2 Delivery charge (driver share) - done

**What we understood**

- Customer delivery charge is split **fairly** to the driver using **distance** and **weight**.
- The driver must **not** see the **total delivery charge** the customer paid.
- The driver only sees **their own share**.

**What we will do (if this is correct)**

- Calculate driver share from distance + weight.
- Driver order screen shows only the driver's amount, not the customer total delivery fee.

#### ### Questions

93. Please give an example: customer pays **10,000** delivery — how much should the driver get? Is there a **platform cut**?

94. Should the driver also **not** see the **product /order total**, or only hide the **delivery charge** total?

---94 ; order total **AND** hide the **delivery charge** total? AS WELL

ANSWER

Q; 93 MAKE IT ASETTING IN ADMIN PANEL AND MUST BE ZONE BASED AND FLAT BASED CUT

#### ### 5.3 Order colors (vendor / outlet / transport) - done

**What we understood**

- Orders from **vendor**, **outlet**, and **transport** should use **different colors** on the driver screen.

**What we will do (if this is correct)**

- Vendor and outlet color keys already exist in the driver new-order API.
- Add a **transport** color/source if transport jobs appear on the driver screen.

#### ### Questions

95. Should **transport shipments** appear on the **same driver order list** now, or later?

---95 ; NOW

### 5.4 Offline (driver) - \$150      NEW

**What we understood**

- Driver delivery should work **offline** (local database + sync + auto upload when internet returns).

### Questions

96. Which driver actions must work offline: **view orders**, **accept**, **pickup**, **deliver**, **GPS location**, or all of these?

— Q96 ALL

### 5.5 Order detail format - done

**What we understood**

- You want to **change the format** of driver order details.  
- You also asked us: **how do we want the format?**

**Our current format (please confirm or replace)**

- Order ID + NEW badge
- Color by source (vendor / outlet / transport)
- From (pickup) name, address, map
- To (drop-off) name, address, map
- Distance and estimated time
- **Driver share only** (not customer delivery total)
- Product / package list
- Vendor phone and buyer phone
- Accept / Decline

If you have a **new mockup**, please send it. If the list above is OK, we will keep this layout.

### Questions

97. Is the layout above OK, or will you send a **new design**?

ANSWER

—Q97; FORGET THIS YOU DID IT

### 5.6 Cancel / withdraw outlet request - done

**What we understood**

- The driver should be able to **cancel or withdraw** a request related to an outlet.

**What we will do (if this is correct)**

- Add cancel/withdraw on the action you confirm below.

### ### Questions

98. Which action should the driver cancel?

- (a) **Join request** to an outlet (before outlet approves)
- (b) **Unclaim** an order taken from the outlet bin
- (c) **Cancel after accept** (stop delivering that order)
- (d) more than one of these — please list

---98; (a) **Join request** to an outlet (before outlet approves)

- (b) **Unclaim** an order taken from the outlet bin

## ## 6. MARKET

**What we understood**

- Put a **demo** inside the **main app**.
- Demo uses **simple data**.
- Demo should work **offline**.

**What we will do (if this is correct)**

- Add a demo mode or demo data set in the main app, with basic offline browse (scope after you answer below).

### ### Questions - \$200 NEW

99. Is “Market” a **Demo** button/mode inside the buyer (or main) app, or a **separate Market user type**?

100. In demo offline mode, can users **place orders** (saved and sent later), or **browse only**?

---Q99; Is “Market” a **Demo** button/mode inside the buyer (or main) app

Q100; **browse only**?

## Clarify:

12. Two features or one? (A) remind buyer to review after purchase (B) notify followers when product changes

ANSWER

\* (A) yes

\* (B) vendor the on to notify via button on product edit

13. Credit limit + due date + late fee — all three? Who sets the numbers — admin?

ANSWER

\* ADMIN

14. Multi-location vendor sees outlets in ALL their towns, or only the current town?

ANSWER

\* OUT LET REGESTERED BY THERE TOWN ONLY

15. Offline last-1-stock conflict: reject the second sale, or add quantities?

ANSWER

\* REJECT SECOND SALE AND NOTIFY VENDOR

16. Walk-in without app account: wallet payment allowed, or Cash/Card/Mobile/Debt only?

ANSWER

\* YES

17. POS customer screen = separate device, yes?

ANSWER

\* YES

18. Vendor % includes Flutterwave fee, or Flutterwave is extra?

ANSWER

\* INCLUDES FLUTTERWAVE FEES

19. Admin can pick any mix of SMS / WhatsApp / in-app, yes?

20. Please list: which admin-staff role gets which notifications.

If a whole section is correct, write \*\*\*"OK as written"\*\*\* and only answer the questions.

OK

Thank you.
